# ESP Exhibition Limited

## IN DREAMS

It's your vision, from the body shape, to the feel of the neck, the graphics, the inlays, the hardware, the materials, and more, limited only by your creativity. It can be as simple as making subtle changes to one of our existing ESP models, or as complex as creating a brand new design that exists only in your imagination. With access to the world's most respected and experienced luthiers, ESP can literally turn your dreams into reality.

The ESP Guitar Company wants to give you everything you need to make personalizing a custom guitar fast and easy. Just visit [espguitars.com](http://espguitars.com) and go to the Custom Shop page. You can download the custom order form and choose from every imaginable combination of guitar design options. Then submit the order form to any authorized ESP dealer for a price quote.

### 2017 EXHIBITION LIMITED SERIES

The 2017 Exhibition Limited project consists exclusively of unique custom guitars & basses, each one both a work of art and a high performance instrument. Incorporating the world's finest materials, intricate inlays, hand carving and custom finishes, each model is hand crafted by master luthiers at the ESP Custom Shop in Tokyo. While custom shop designs are usually specified by the people who order them, these special exhibition models have been designed by the master luthiers themselves.

TE-II KOA Limited Edition

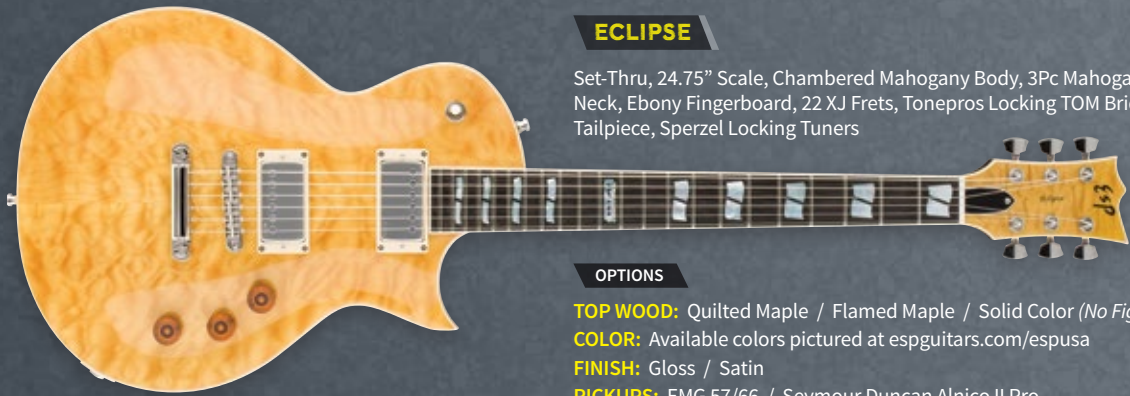

## EXPERIENCE EXCELLENCE

We started the ESP USA Series in 2014 when we opened our US-based guitar production factory in North Hollywood CA, next to our USA headquarters. This facility allows us to create instruments that continue ESP's tradition of excellence in guitar building with instruments made in the USA.

Now, you can design your own from a number of available options. Start by selecting an ESP body style, like our Eclipse, M, or TE. Choose a wood, such

as luxurious flamed or quilted maple. Pick between a number of finish colors in gloss or satin. Decide which premier-quality pickups you need... EMG or Seymour Duncan. And our North Hollywood shop will create your personalized ESP guitar right here in Southern California.

Each ESP USA guitar includes a custom form-fit hardshell case and comes with a Certificate of Authenticity and Build Specification Sheet. Visit [espguitars.com/espusa](http://espguitars.com/espusa) for more information.

Signature Series

Kirk first visited ESP's NYC offices in the mid 1980s in his search for a company that could execute his vision of a guitar that could meet all his needs as Metallica's lead guitarist. Featuring neck thru body construction, EMGs, and signature skull inlays, that idea became his first ESP. It was released as a signature model in 1987, and to this day the KH-2 design remains his primary touring and recording guitar.

Signature Series

In 1986 George walked into an ESP shop in Tokyo during his first visit to Japan. After meeting ESP's luthiers, George designed the first Kamikaze that same day. It soon became his main instrument, and thirty years ago in 1987 was introduced as the first George Lynch signature model. The Kamikaze remains one the most recognizable instruments in ESP history.
